4-2023 Following up on my post: our ten year old just did his Padi Junior Open Water with Topdive at Fakarava South Pass. A very positive experience, lots of practical skills and great initiation to scuba diving Topdive in Fakarava at the North side (Rotoava) had very good instructors and take safety seriously. I was really surprised how professional the centre is run, much in contrast with some other places we dove

4-2023 did a dive with Hemisphere Sub Plongée (Raiatea), and they were great with some visiting friends who were on their first dive post certification. Always kept an eye on everyone and was good at explaining our dive plan. Just based on that, I bet they'd be good for someone going through dive certification. Worth stopping by to see if they'll be a good fit.

## STH Marine Taina Marina (Service)

Island: **Tahiti**

10-2019 SV Panache We took our dive tanks to the STH Marine shop at Marina Taina. I asked for a visual inspection. Without consulting me, they decided to do a pressure test and a valve inspection as well. We got the tanks back and loaded them onto the boat. We didn't use them until we got to Bora. Once we got there, we found that the valves on 3 of the tanks were faulty, rendering the tanks unusable. The problem was that they had only tightened the packing nut by hand. The nut needs to have 60 ft-lbs of torque! Take your tanks to Nautisport for service.

Can do Hydros, repair compressors and fill tanks Sub Technology is just past the Naval Base but before the Mobile Station on side street towards the harbour. Tanks in French Polynesia (legally) must be hydro tested every five years and VIP tested annually. You must have paperwork for each test or it will technically be illegal for a shop to refill your tank. Another shop named Argos is at the far eastern end of Motu Uta and were recommended by a scuba shop for hydro testing. Nautisport will handle the testing but at a premium.

I've a commercial diving company Travaux sous marins du Pacifique ,and I've a sailing boat ( Sun Odyssey 42') With my diving crew we used to make different jobs and under boats , we can do: Hull cleaning ,and report for Nez Zealand entrance,( sailing boat , yachts and big ship) Anodes changesPropeller cleaning or change ( when damaged) Hull pass change ( without take the boat out of the sea) Inspections + report. Repairs All my staff and myself speak English and if necessary we can move to different islands of French Polynesia

05-2021 SV Ourialys 2 Just a word on Phil. I found him through another contact I found on your guide, and he was very quick and accommodating in getting our underwater hull inspection done as a final check on a boat purchase settlement. He was very responsive in using Whatsapp, and sent boat photos and videos through quickly.
