# Guy Cordier

Island: **Tahiti**

I spoke to you on the dock the other day about the retirement of Richard Lecler. He passed on the name of a recommended and vetted replacement. The guy I contacted is named Guy Cordier, is French, lives aboard at Taiaïna, sails to NZ in November every year for cyclone season. He speaks English pretty well as well as French and Spanish. He was prompt and thorough and fixed my stuff in good time. I had a 12v problem he searched out and solved, a 120v he searched out and solved and is going to help me replace my old battery bank and expand my amp hours capacity. He has a partner that he says is more a pure electrician but Guy does lots of other stuff (generator repair, watermaker repair, even epoxy and fiberglass repair).

His contact is as follows: Guy (pronounced in the French way) Cordier ☎ [+68987249468](tel:+68987249468)

10-19 (SV Anatasia) I had a very good experience with a new electrician, Petrouch Elec. Bruno and his wife are live aboards on their yacht Petrouchka on a mooring in Taina. They came from Patagonia and Antartica, so are very aware of the needs and problems that can occur on a yacht. Bruno can very well help himself in English. He is correct in his appointments and very honest. He can be contacted for more then only electricity works, also mechanic and computer/electronics is in his skills.
