Scubapiti/Moorea To fill dive tanks: \$10. per tank, regardless of the level brought in. They'll do it while you wait, and it only takes 10 minutes. They want to see the stamp on the tank which shows when they were last hydrotested and will not fill if it's out of date. Past the Intercontinental Hotel by dinghy heading west, blue building, long pier. 📧 [scubapitimoorea@gmail.com](mailto:scubapitimoorea@gmail.com)

Can do Hydros, repair compressors and fill tanks Sub Technology is just past the Naval Base but before the Mobile Station on side street towards the harbor. Tanks in French Polynesia (legally) must be hydro tested every five years and VIP tested annually. You must have paperwork for each test or it will technically illegal for a shop to refill your tank. 10- 2021, SV Marauder - dropped off our steel and aluminum tanks to be recertified. The owner is polite, speaks english, and prices are good...not a huge difference from nautisport but slightly cheaper..He also said he'd be able to get our tanks done sooner than nautisport...haven't gotten them back yet, but hoping soon! Also, unlike places in Hawaii, he did not ask for a cert card to get the tanks' recertification.
