Champion (Uturoa)

Island: **Raiatea**

SV Athanor

11-2019 Sodastream refills available in Raiatea at Champion. Near the main wharf in Uturoa

10-2020 Reported on the FP FB page...The US bottles can't be swapped here. All the bottles in FP are the Australian fitting (**see below remark SV Kissinga)

Carrefour Taina

Island: **Tahiti**

Sodastream cylinders with a 1/2“ thread can often be changed at Carrefour and always at the source, which is Company SDA.

20-2020 It was recently reported "The US bottles can't be swapped here The Australian ones (in Carrefour) and the European ones (in Super U) at least in Huahine and in Raiatea

3-2022 SV Kissanga We share with you the solution of the SodaStream mystery in Polynesia After 2 years of confusion between different bottles, we understood that you can find both standards in Polynesia ! In the Super U stores (validated in Raiatea & Huahine, to be check in Tahiti), they sell the bottle model with thick thread (European standard / picture on the right) and in the other supermarkets (Champion,Carrefour...), they sell the bottles with thin thread (Australia & New Zealand standard/ picture on the left). So ... Don't throw away your EU/USA SodaStream equipment !!

SDA

Soda Stream Notes

Island: **Tahiti**

4-22 submitted to FP FB page by Emilie

- SODASTREAM FP mystery ** Good morning all We share with you the solution of the SodaStream mystery in Polynesia After 2 years of confusion between differents bottles, we understood that you can find both standardsin Polynesia ! In the Super U stores (validated in Raiatea & Huahine, to be check in Tahiti), they sell the bottle model with thick thread (European standard / picture on the right) and in the other supermarkets (Champion, Carrefour...), they sell the bottles with thin thread (Australia & New Zealand standard/ picture on the left). So ... Don't throw away your EU/USA SodaStream equipments !! See photo of different thread types

1-2021 The valves for soda stream bottles and machines are of one type in North America, and of a different type in the pacific. This means that no store in FP will accept your 60L CO2 bottles for refill or supply you with new ones that will fit your North American bought soda stream machine. The only solution is to fill your bottles yourself with dry ice, or buy a new machine and bottles. You might save some money by ordering the brass bottle valves used in the pacific in advance (I found them online at a brewers supply store in Australia) and swap them yourself on your 60L CO2 bottles so at least you can reuse those. Carrefour next to Marina Taina sells a range of FP soda stream machines, and the CO2 bottles to go with them cheaper than at the official distributor of soda stream (O'pure).

Soda Stream Refilling Yourself

Island: **Tahiti**

Sodastream Refilling yourself If SDA is unable to fill your bottle due to not being able to match the thread type. There is a shop that carries the adapter from Australian to USA thread located directly across from Marina Papeete and located next door to Boutique Nespresso. □□ www.amazon.com/dp/

B08L795VRB?starsLeft=1&ref_=cm_sw_r_cso_cp_apin_dp_BR8HFT2A5ZASNS6MNGM0&fbclid=IwAR2vMqgzF- _ZNFjvaodTSfhbBR3R3vO9FDu7h5pX7cLjGJSWz2nq7T4w_B0 If your sodastream thread is non standard to those in FP it has been noted by numerous cruisers that you can refill it yourself. Purchasing dry ice by weight that matches what is on your bottle label. Unscrew the threads and fill with dry ice. You can buy dry ice from Gazpac See C02 refills for details
