8-2021 SV Konbreo I bought a set of 5x LG375w panels from Donergy. They were very helpful and the panels are amazing. LG are generally a bit more expensive than some other brands but well worth it for the quality. They are the bigger size panels but my batteries are now charged by about 11am and I can now run my watermaker off the solar panels...!! www.lg.com/us/business/solar-panels/lg-lg375q1c-v5

3-20-2024 SV Tavae They always have a good stock and can deliver in few days. One what they have now is about 440 watt. They have all mounting material.

12-21 SV FreeVol Excellent price (20,000 francs per 320 watt panel), free Taina delivery, perfect reception. They don't sell solar panels smaller than 320 watts

8-21 SV Hedonism just bought 2 each, 340 watt panels from Ace's Solar store. I forget their name but they are part of the STH group. Just moved their store front to where the little restaurant used to be right on the corner between Ace Paint store and Ace Hardware. I priced the panels at Sunzil as well but the STH store was $155 each or about 100 bucks cheaper (each) than Sunzil. The panels are the newer "split design" that reduces the partial shading issues.

Yingli Solar. FREE delivery to the working dock at Taina included.

On Prince Hanoi about a ten minute walk from the water front, next to Pet store. Sells solar panels sytems but can provide components. Speaks very good english. Also has good selection of batteries.

SES Consulting

Island: **Tahiti**

SES Consulting Carries Solar panels, victron equipment and batteries I think he's a consultant, not a store. His phone is □□ +689877637 17, and his name is M. Tchong Yuen.

8-21 SV Turtle Blues purchased a number of items from SES Consulting and recommends them For more information, see Batteries

10-2019 (SV Moskito Valiente) Horrible products quality. By far the worst place to buy solar panels in French Polynesia. The owner is very rude and lies. He shows one panels and delivers another quality panel. New panels with corrosion!! The only good point of this place is the staff that are very helpful and always trying to help despite of the stupidity of the owner.

There are very few 12V panels most are 24-48V for residential or commercial. But stock is constantly rotating so be sure to check it out

11-2020 SV Mat-Lau III Sunzil is a large commercial installer of solar systems in French Polynesia. They will also supply top quality batteries, solar panels and solar controllers to the boating community at reasonable □□ prices.Sunzil supplied 9 off CsPower HTL

12-150 AH Gel Batteries to Mat-Lau III at a very competitive price in June 2019. We are very happy with the performance of these □□ batteries.In September 2020, Sunzil supplied 4 off Jinko 340 watt solar panels, and assisted us with the importation of a Victron SmartSolar MPPT 250/100 Controller. Sunzil will not fabricate Inox frames for the panels, so after a hugely frustrating experience with every marine stainless steel fabricator on Tahiti, we finally found Metali’nox who fabricated the frame to our detailed drawings. Sunzil co-ordinated with Metali’nox to ensure the panels would fit. The staff at Sunzil are very knowledgeable, and the proprietor Jimmy Wong and his Sales Manager Martial Oberi, were very helpful - both speak English. We are 100% satisfied with our solar panels -

what a difference it makes to have power to burn. 10- 2019 (S/V Moskito Valiente) At the end we bought with Sunzil and we’re very happy with it in overall! :)

2017-2018 (SV Jacaranda) We have purchased a few different panels from Sunzil and have been very happy with the service and price. Martial even dropped them off after work at the Papeete Marina. Martial also shipped a panel to us in the Marquesas as well. Highly recommend them
